

HOW TO HAVE A GUESSING SNACK PARTY

These are the easy instructions so you can make your very own guessing snack party. Invite your friends over and put your tongues to the test. All you need is snacks, bowls, paper and pencils.

This is our friend from *Just Grace and the Snack Attack*. He is going to help with the party.

PICK YOUR SNACK

The best kinds of snacks are the ones that kind of look the same but have different flavors. Here are a few examples, potato chips, cereal, and yogurt.

NUMBER YOUR BOWLS

It is important to number the bowls because then you will be able to write down what is in each bowl. On a piece of paper make a list of your bowls and write down what is in each one. If you let your mom or dad do this part then you do some guessing at the party too.

PUT YOUR SNACKS IN BOWLS

Put each different flavored snack in a different bowl.

DON'T FORGET

Hide your list somewhere safe so no one will see it. Give everyone a pencil and a piece of paper and see how many flavors they can guess correctly. Have fun!
