GEORGE WAS A GOOD LITTLE MONKEY, AND ALWAYS VERY CURIOUS . . .

All babies are naturally curious about their world. Even from their earliest days, babies are exploring—and learning about—the world around them. So, who better to help them explore than Curious George?

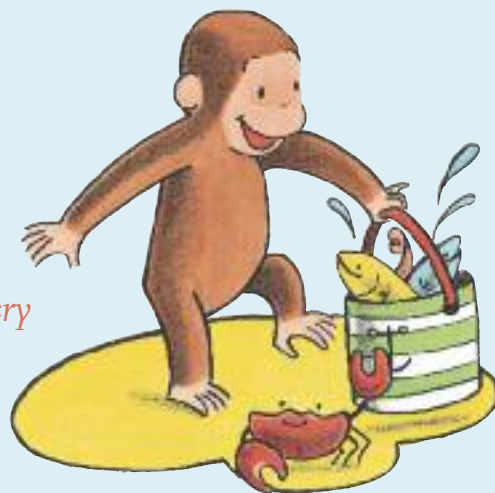

Curious Baby books are created especially for babies age 0–2—those crucial early years when so much of a baby’s development, both physically and mentally takes place. The perfect time to start introducing babies to the world of books is . . . now! Houghton Mifflin Harcourt is pleased to help make a child’s literacy journey a happy one with four new Curious Baby books. The beautiful patterns, rich learning opportunities, and reasonable price will make these books the perfect gift—or the perfect first book for any baby!

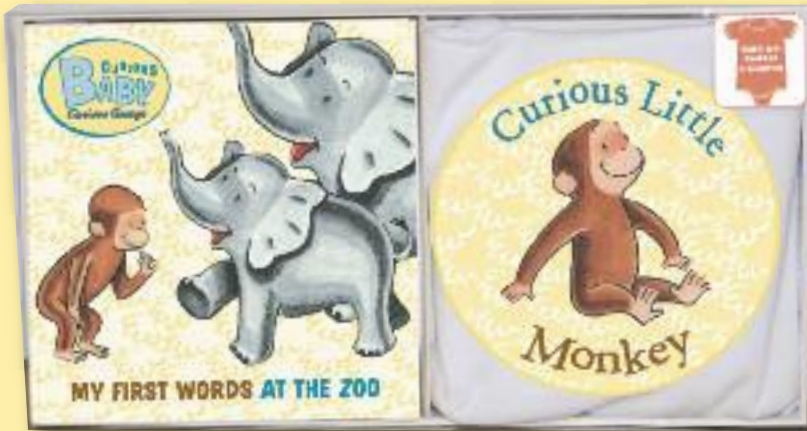

Every baby is a curious baby!
